## **SPECIFICATION SHEET**

PRODUCT:	Rabbit serum to <b>Duck ovalbumin</b>
CATALOG NUMBER	R8103-0A
HOST ANIMAL:	Rabbit
DESCRIPTION:	Antiserum is developed in rabbit by using purified duck ovalbumin as immunogen, containing 0.1% NaN <sub>3</sub> as a preservative.
IMMUNOGEN:	Purified duck ovalbumin, from duck egg yolk
CONCENTRATION:	Undiluted, Neat whole serum
STORAGE:	For continuous use, store at 0~5°C. For extended storage: -20°C. Repeating freezing and thawing is not recommended.
SPECIFICITY:	A single arc was shown while the antiserum was reacting with duck ovalbumin by Immunoelectrophoresis. Similar specific reactions were observed when the antiserum was tested by western blot assay.
TITER:	ELISA titer : <b>≥10000x</b> ELISA titer is defined as the dilution of antiserum sufficient to give a change in absorbance of <b>1.0</b> at 450nm. Optimal working dilutions should be determined experimentally by the investigator. Prepare working dilution immediately before use.
APPLICATIONS:	Good to be used in immunoassay method e.g. Immunoelectrophoresis, Western Blot assay, Immunodiffusion assay, ELISA et al.
RELATIVE PRODUCTS:	Rabbit IgG to Duck ovalbumin—affinity purify ( <b>R8103-1D</b> ) Rabbit IgG to Duck ovalbumin ( <b>R8103-1E</b> )

For *in vitro* research and manufacturing of diagnostic only.
